

F & G

SCIENTIFIC INTELLIGENCE

Independent Scientific Due Diligence
& Evidence Intelligence

A Division of F&G Global Trade GmbH

Complex Science. Clear Decisions.

We help investors, companies and decision-makers evaluate technologies, products and scientific claims before committing capital, resources or strategic partnerships.

We translate complex scientific information into practical insights that reduce risk and support confident decisions.

SCIENTIFIC DUE DILIGENCE

Independent assessment of technologies, products and scientific claims. We identify strengths, limitations, evidence gaps and potential risks.

EVIDENCE INTELLIGENCE

Rapid synthesis and critical evaluation of scientific literature and data. We deliver clear, balanced and source-verified conclusions.

SCIENTIFIC RISK ASSESSMENT

Evaluation of scientific and technical risks including mechanisms, safety concerns, efficacy uncertainties and translational challenges.

EXECUTIVE REPORTS

Decision-ready reports and briefings for investors, executives and boards. Concise, objective and actionable scientific intelligence.

AREAS OF EXPERTISE

LIFE SCIENCES

- Molecular Biology
- Biochemistry
- Physiology
- Public Health

PHARMACOLOGY & DRUG TRANSPORT

- Transporter Biology
- ADME & PK Principles
- Drug-Transporter Interactions
- Mechanistic Evaluation

RESEARCH INTELLIGENCE

- Evidence Evaluation
- Scientific Data Analysis
- Systematic Reviews
- AI-Assisted Research

WHY F&G

- ✓ Independent & Objective
- ✓ No Conflicts of Interest
- ✓ International Scientific Expertise
- ✓ Decision-Ready Reporting
- ✓ Confidential & Discreet
- ✓ Human Expertise Enhanced by AI
